From Flash to HTML5 available without Poki

games

Since people have always enjoyed unwinding and having fun, they have created numerous devices or simply exploited resources that were available to them. That is how things familiar to us were created: balls, skittles – before that they were just stones and sticks. But now we have all these technology and devises, thanks to which the gaming component of everyday life has increased many times.

Since modern browsers have

stopped supporting Flash technology since 2024, games based on this system are gradually leaving web pages. However, there are still some of the most popular toys that work in browsers using special emulators. HTML5 technology significantly expands the possibilities for players. Created using modern developments, HTML5 games can be launched both on desktops and on many other devices of various modifications.

If you're

tired of only seeing Poki games, you've come to the right spot because this website contains a complete section of strange games that everyone can find.
