Esports are a big deal and there are only a few bigger than FIFA. For a growing number of young fans, the abbreviation 'FIFA' is more associated with the game than with football's governing body. The concept is simple. Individual players take control of teams on the PC or Console, and then play in matches and tournaments. Some of these players are professional and earn big money. Almost every leading professional club now has an official FIFA team and there is now an official FIFA World Champion, which you can bet on by picking the best FIFA betting sites. People are just becoming accustomed to watching games on television and online. It is not a surprise, therefore, that betting on the games with FIFA bookmakers is also growing. Especially in a year when COVID-19 has brought the game of football to a halt. Betting on the top FIFA betting sites can be considered a new and growing market, so let us be your guide to finding FIFA betting companies in the following article.

**FAQ ? What is FIFA betting?** The idea is the same as in the normal football. You do your research, then you bet. However, you are betting on the talent of the player and not the virtual team. You will need to pick a betting site, open an account and deposit money first. ? What kinds of bets are there? There are the usual bets on the FIFA betting sites around tournaments: group winners, tournament winners, top scorers and so on! ? Are there specific eSports bookies? There

are a few, but the established names are offering more and more markets and increasingly competitive odds. ? Can I receive free bets?
